Skills

Languages: JavaScript, TypeScript, Python, Dart

Frameworks & Libraries: Node.js, Express.js, Angular, FastAPI, Flask, Pandas, Flutter, Tailwind CSS

Databases: MongoDB, Mongoose, PostgreSQL, Firebase, Supabase

Cloud & DevOps: AWS (EC2, S3), GCP, Docker, CI/CD

Tools & Testing: Postman, Swagger, Jest, Git

Other: GenAI Integration, Data Analysis, Agile/Scrum, App Store Deployment, Play Store Deployment

Work Experience

Quantiphi Analytic Solution Pvt Ltd, Mumbai | *Senior Software Engineer* Oct 2021– Present

- Leading feature development on **Baioniq's core product** as a full stack engineer, responsible for building scalable APIs, implementing new features, and managing end-to-end deployments in a production environment contributing to a **40% increase in enterprise adoption of the platform**.
- Actively contributed to architectural decisions, led technical discussions, and recommended integration of emerging AI trends to enhance product intelligence and user experience.
- Contributed to the development of an EdTech platform for **SHNU University**, working closely with the team to build the frontend from scratch using **SOLID principles**, ensuring a modular codebase and seamless user experience.
- Managed sprint execution, code reviews, and cross-functional collaboration with designers, QA, and product managers, **increasing delivery speed by 25%**.
- Led the end-to-end development of a document automation platform **Docifi** that enables users to upload documents, which are then stored in cloud buckets and analyzed to auto-fill forms **reducing manual data entry efforts by ~70%** and improving processing speed.
- Designed the high-level system architecture and implemented core backend services using **FastAPI**, while contributing to frontend development **accelerating feature delivery by 40%** and ensuring seamless integration across components.
- Improved the fault ticketing workflow in the **Adani Green** by enabling Excel-based data input and dropdown-driven issue selection streamlining the process and reducing manual effort by ~60%.
- Resolved critical bugs in existing GCP Cloud Functions as part of the **Adani Green**, improving backend reliability and ensuring smoother system operations.
- Angular, NodeJs, Fast API, Python, Flutter, MongoDB, Postgres SQL, Docker, GCP, CI/CD, git

Smart Data Enterprises (I) Ltd, Nagpur | *Associate Full Stack Developer* Jan 2021 - Sep 2021

- Developed and maintained full stack applications using the **MEAN stack**, focusing on API development, secure login flows, and feature implementation.
- Deployed services on **AWS EC2** and improved backend performance using **Redis caching**, resulting in a **~50% reduction in response time** and overall **~30% improvement in system efficiency**.
- Contributed to UX design improvements and worked directly with clients to gather requirements, provide regular updates, and ensure successful delivery of features.
- **Led a small development team**, mentoring junior developers and reviewing code to maintain quality and consistency across modules.
- Contributed to mobile app development using **Flutter**, ensuring feature parity and seamless integration with existing APIs.
- Angular, NodeJs, Express, Redis, MongoDB, Flutter, EC2, Filezilla, git, Postman, Docker

Heta Datatin, Nagpur | *Software Engineer* Jan 2018 - Jan 2021

- **Led** the creation of interactive dashboards to visualize energy and productivity data for hospitals and industrial clients, enabling real-time insights and operational decisions.
- **Achieved 42% energy savings in hospitals** and **18% in manufacturing units** (KWH/Job) by optimizing data flow and leveraging dashboard-driven insights.
- **Contributed** to the automation of consumption-based reports, reducing manual workload and enhancing reporting accuracy.
- **Processed and refined** raw sensor data using **Pandas (Python)** to improve data quality and analytical precision.
- **Collaborated** on backend API development using **Laravel**, supporting real-time analytics and frontend integration.
- **Delivered tailored solutions** for clients including **Zulekha Hospital (Dubai), Alpha Foam (Pune), and ZIM Pharmaceuticals (Nagpur)**, adapting tools to meet domain-specific needs.
- **Took initiative** to learn **Flutter** and contributed to mobile energy monitoring apps, expanding platform accessibility.
- Angular, PHP, Python, Flutter, File Zilla, Amcharts, HighCharts, JQuery, PlayStore, Data analysis.

Education

Bachelor of Engineering, Information Technology | RTMNU, Wardha, Maharashtra -June 2017

Certifications

Python for Data Science and Machine Learning – *Udemy*
